Answers on Demand

Scriver's
OMMB&D

Online Medical Products from McGraw-Hill provide students, residents, clinicians, professors, and researchers with instant answers to clinical and educational questions from the most trustworthy sources. We have expanded our online portfolio to provide clinical information, medical reference, curriculum tools, and multimedia in general surgery, emergency medicine, anesthesia, genetics, physical therapy, pharmacy, and primary care.

All of the Access online products are updated on a monthly basis and feature a fully integrated drug database including pharmacokinetics, indications and contraindications, and adverse reactions and have external OpenURL-enabled links to primary literature via PubMed.

An online resource for learning, teaching, and practicing evidence-based medicine

JAMAevidence.com

- Full content from *Users' Guides to the Medical Literature* and *The Rational Clinical Examination* (RCE)
- An online Custom Syllabus, which allows instructors to assign topics and activities to groups of learners, and track their progress
- Online Education Guides including teaching points to enhance classroom and conference learning—Also available as downloadable PowerPoints
- Powerful interactive functionalities, including functional calculators, customizable Worksheets, and Question Wizards

All the Authority of Harrison's at the Point-of-Care

harrisonspractice.com

- Concise, instant diagnosis & treatment recommendations, guidelines for providing ongoing care, and clinical pearls at the point of care
- More than 800 of the most common topics in internal medicine, and offers CME credit on searches
- Access to the full-text of *Harrison's Principles of Internal Medicine* for in-depth basic disease and pathophysiology information

The Unparalleled Resource for Genetic Contribution to Health and Disease

ommbid.com

- Updated with new chapters on key topics and revised chapters that reflect the latest research
- My OMMBID functionality that allows users to build their own image library and add digital content notes
- External linking to related sites, including OMIM, PubMed, and GeneReviews
