McGraw-Hill's **ACCESS** Anesthesiology

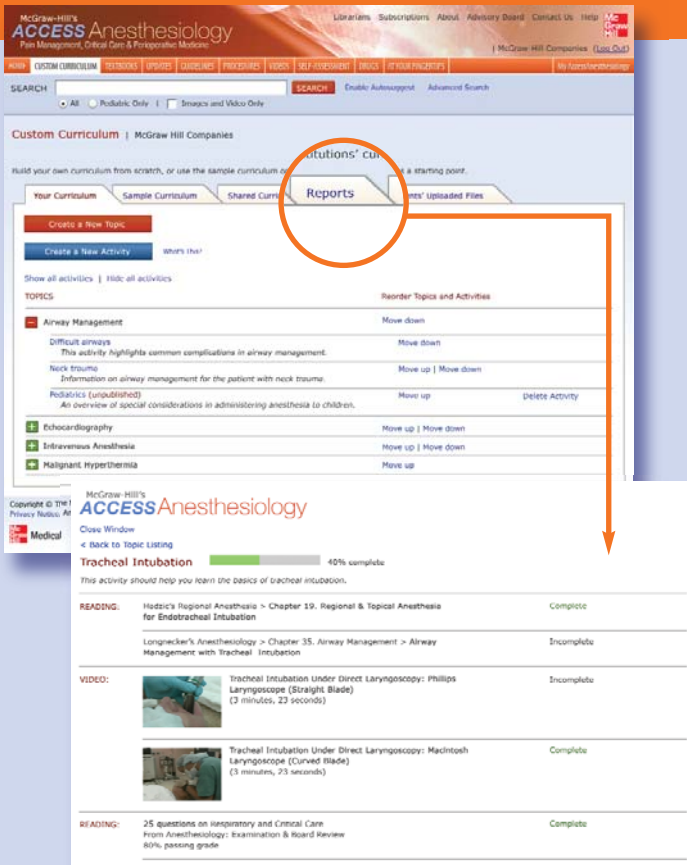

Pain Management, Critical Care & Perioperative Medicine

From the publishers of
AccessSurgery and
AccessMedicine,
a **new approach** to
anesthesiology
reference, research,
and curricular
instruction

accessanesthesiology.com

McGraw-Hill's AccessAnesthesiology leads the way in online learning with a new generation of anesthesiology reference tools, integrating renowned medical resources with exclusive procedural videos, customizable curriculum functionality, and powerful search functions. Backed by an esteemed editorial board, this online resource offers access to a collection of interactive calculators, procedures, clinical guidelines, and self-assessment, along with tables and charts designed for quick reference.

Custom Curriculum — Tailored to Your Program

AccessAnesthesiology features the Custom Curriculum, a powerful online tool used to assign, manage, and track the progress of resident assignments. For program directors, **AccessAnesthesiology** represents a significant step forward in curriculum development and design, offering detailed assignment monitoring, student assessment tests and tools, and student progress reports, as well as an ability to share assignment designs with other programs.

With **AccessAnesthesiology's Custom Curriculum**, program directors can:

- ◀ Create, edit, assign, and monitor activities
- ◀ Require self-assessment tasks, including pre- and post-tests, and set the passing grade
- ◀ Track student progress through reading and video assignments, deadlines, and tests
- ◀ Track & report curriculum status by resident or by rotation
- ◀ Share curriculum activities with administrators at other institutions, and report on shared curricula
- ◀ Develop rotations online or adapt existing rotations from the shared library
- ◀ Link to journal articles and other external resources

AccessAnesthesiology — Tools You Can Trust

- ◀ Paramount medical resources including: **Longnecker's Anesthesiology**, **Hadzic's Textbook of Regional Anesthesia and Acute Pain Management**, and **Morgan's Lange Clinical Anesthesiology**
- ◀ Procedural videos including all-new, exclusive videos from Orlando Hung and Mike Murphy (authors of **Management of the Difficult and Failed Airway**), and an ultrasound series made exclusively for **AccessAnesthesiology**
- ◀ Practice Guidelines featuring easy-to-use summary tables along side the full-text guidelines
- ◀ Self-Assessment Q&A from **Anesthesiology: Examination & Board Review** and from **Clinical Manual and Review of Transesophageal Echocardiography**
- ◀ Fully integrated drug database that provides dosing, indications, adverse reactions and drug interactions
- ◀ **My AccessAnesthesiology** section that provides users with quick access to their most recent saved content, including images and bookmarks
- ◀ PDA downloads, external links to primary literature via PubMed, monthly updates, including text updates to **Anesthesiology** and **Goodman & Gilman's The Pharmacological Basis of Therapeutics**, and much more

McGraw-Hill Medical Institutional Product Information

Free Access — Users have free access to title, author, copyright, and chapter abstracts of individual medical resources.

Pricing — Pricing is based upon the size of the institution, as well as consortia arrangements. Discounted pricing is available on McGraw-Hill Online Products for current AccessMedicine institutional subscribers.
