ACCESS Emergency Medicine from McGraw-Hill

Meeting the Immediate Needs of the ED

An Integral Part of Clinical Practice and Resident Education

AccessEmergency Medicine™ from McGraw-Hill is the authoritative resource that allows busy physicians, residents, and students to quickly find diagnosis and treatment answers for a broad range of emergency cases, integrating renowned medical resources with detailed procedures and videos, the Custom Curriculum tool, and powerful search ability.

Backed by an esteemed editorial board, this online resource, including the leading *Tintinalli's Emergency Medicine: A Comprehensive Study Guide*, offers access to a collection of self-assessment tools, a comprehensive drug database, and a robust image library designed for quick visual diagnosis.

Custom Curriculum TAILORED TO YOUR PROGRAM

Custom Curriculum is a powerful online tool that allows program directors to effectively manage their resident training—from one convenient site.

Customize your curriculum with content from our leading textbooks and clinical references, as well as cutting-edge videos and procedures to create interactive online rotations and activities that address your institution's unique educational needs.

With Custom Curriculum, faculty can:

- Incorporate **AccessEmergency Medicine** and other medical content into assignments and activities
- Monitor and report mastery of required topics by resident or rotation
- Create, manage, and save rotations and resident education more efficiently

With Custom Curriculum, residents can:

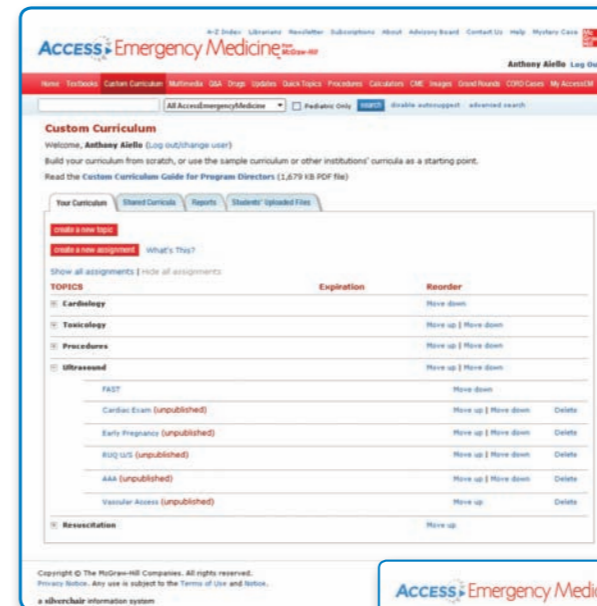

- Study procedures in detail using faculty-selected resources
- Test themselves and track their performance and areas for improvement

AccessEmergency Medicine DELIVERS:

An online collection of the most current emergency medicine resources, such as *Tintinalli's Emergency Medicine*—which features exclusive online-only material such as regular chapter updates. Other titles include:

- *Atlas of Emergency Medicine*
- *Goldfrank's Toxicologic Emergencies*
- *Emergency Medicine Procedures*
- *Emergency Ultrasound*
- *Pediatric Emergency Medicine*
- *Neurologic Emergencies*

- ▶ **A robust library of videos and images** cover essential procedures and clinical presentations, ideal for visual diagnosis and treatment
- ▶ **Tools for emergency medicine professionals**, such as point-of-care support from the *Emergency Medicine Manual* and video-based CME offered in partnership with the American College of Emergency Physicians
- ▶ **Interactive Self-Assessment** features hundreds of Q&A covering core emergency medicine topics to help residents prepare for exams
- ▶ **Fully integrated drug database** that provides dosing, indications, adverse reactions and drug interactions

Editor-in-Chief

Judith E. Tintinalli, MD, MS, FACEP University of North Carolina at Chapel Hill, Professor and Chair Emeritus, Department of Emergency Medicine, University of North Carolina School of Medicine

AccessEmergency Medicine Advisory Board:

- Stephen H. Thomas, MD, MPH** University of Oklahoma
- David M. Cline, MD, FACEP** Wake Forest University
- Mary Jo Wagner, MD, FACEP** Michigan State University
- Kevin Biese, MD, MAT** University of North Carolina at Chapel Hill

AccessEmergency Medicine is an ideal investment for research and institutional libraries:

- Offers the unique mix of highly clinical information supported by foundational texts and references
- Makes extensive use of images
- Provides extensive preparatory material for board exams
- Includes semantic search tools for fast, complete results
- Usage statistics and tracking tools help measure ROI
- Flexible authentication and access options including Athens
